DETAILED ACTION

1. Claims 1 to 9 are presented for examination.

Response to Amendment

The rejection of claims 1 to 3 as being obvious over Luk in view of Hii et al. is withdrawn.

Allowable Subject Matter

- 2. Claims 1 to 9 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: the instant invention is directed to a method of testing a memory under test on a memory tester wherein test patterns are stored in the memory under test until all the transmit vectors are processed and then comparing the stored test patterns of the memory under test to the stored test pattern in the working memory. The prior art made of record teaches a method for testing a device under test (DUT) by writing data to the DUT and comparing the data with data written to a known good device (KGD); however, the prior art made of record fails to teach or fairly suggest storing the test pattern until the conclusion of the transmit vectors.

Specifically, the prior art made of record taken alone or in combination fails to teach or fairly suggest or render obvious a method of testing a memory under test on a memory tester, the method comprising the steps of: storing test pattern data within the memories to which it is applied, the stored test pattern data in each memory being an

end result remaining stored therein after the conclusion of the application of the entire sequence of transmit vectors; and comparing the stored patterns following the conclusion of applying the same sequence of transmit vectors to the memory under test and to a work memory within the memory tester. Claims 2 to 9 are directly or indirectly dependent on claim 1 thus these claims are allowed over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shelly A Chase whose telephone number is 703-308-7246. The examiner can normally be reached on Mon-Thur from 8:00 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert Decady can be reached on 703-305-9595. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
